2. The above normal charges in the Communication's account are attributable to back payments for telephone instruments. Prior to this time we paid a pro rata portion based on the total number of instruments on the Test Site. We now pay a fixed charge per instrument that varies from \$10.00 to \$30.00 per instrument. According to information received from [REDACTED] the new rates resulted from a recent decision of IDEN A. We anticipate a roll back of the current rates in January 1964.

3. The charges in account 7971 are made up largely of equipment charges. This equipment was procured for use in the Maintenance and Operations program.

4. Forwarded under separate cover are five copies of the June 1963 Cost Report together with our certification for services and materials.
